Audit Rating

1NGO Audit Methodology

One of our key pillars of focus from 2024 is **building NGO Transparency and Trust for Donors**.

With that aim we have started the 1NGO Audit process this year, whereby we visit each NGO. We review with them a preset questionnaire which helps us better understand each of the following areas of their performance.

- How clear they are about their objectives,
- How they cater to donor needs,
- What impact they have on their beneficiary,
- How transparent are their operations and finally,
- What kind of strategic planning are they doing.

During and post the audit we collect relevant documents that substantiate their claim and come up with a Score and Star Rating for the audit.

We post the findings from our Audit on our website to create the needed transparency and trust for Donors so that the hardworking and result oriented NGOs receive the right visibility.
